Steps To Improve Water Supply

I-Cr. THIRD STAGE SCHEME

Mysore May 15

The third stage water supply scheme costing Rs. 1. 15 crores had been prepared for Mysore city and was ready for Government approval, Sri V. Narayanaswamy Naidu, Superintending Engineer, Public Health Engineering Division, disclosed in the Municipal Council.

A special meeting of the Council was held yesterday to consider the water supply problems in the city. President B. K. Puttiah was in the chair.

Sri S. R. Subba Rao, Executive Engineer, presenting a report on the city's water supply problems and remedial measures, suggested long-range improvements including construction of a central storage reservoir to store a day's requirements, zonal reservoirs, laying of new trunk mains inter-connecting certain reservoirs and installing water metres.

The Executive Engineer said that certain minor improvements had already been completed. Some new link lines had been laid. It was proposed to lay a new line in Kalamma temple street.

Sri Subba Rao anticipated the growth of city by 1986 to an area of 32 spuare miles with a population of five lakhs. By then the demand would be about 20 million gallons a day.

He said that a scheme for providing the necessary arrangements to increase the water supply to this capacity was being prepared and when fully implemented there would be an excellent system in the city.

Members of both the sides complained of irregular water supply in many areas and frequent failures.

Sri Puttiah urged for early commencement of work on the third stage of water supply to overcome the difficulties frequently experienced.

Police Open Fire In Nanjangud

Mysore May 19

One person was injured when police fired to disperse a stone-pelting violent mob in Nanjangud yesterday.

The trouble arose when people came to know that a villager, Mahadeva (32), who had been taken into custody by the police for interrogation on Sunday night, was found dead next morning in the hospital.

Suspecting police excesses, a big crowd collected before the hospital demanding inquiry into the villager's death. According to the police, the deceased might have consumed folidol.

The crowd became restive when the police refused to hand over the body to them for taking out in a procession and began pelting stones. Section 144 was immediatley imposed.

The police made a lathi charge and fired in the air to disperse the violent mob. About 15 policemen are stated to have been injured in the stone pelting.

Two contingents of reserve police were also rushed from Mysore. DIG Elisha and Police Superintendent P. J. Bagilthaya visited Nanjangud. One sub inspector and two constables have been kept under suspension.

Land Stir By Communists

Mysore, May 30

The State Council of the Communist Party of India will launch a "Land Struggle day" on July 1 all over the State and will occupy waste or fallow lands belonging to the Government and distribute them to landless peasants. Meetings and demonstrations will also be held on that day.

The four day meeting of the Karnatak State Council of the party held in the city from May 26 also decided to organise a jatha from Aug. 9 to 15 to the lands of princes and big land-holders in the State to urge Government to break these big holdings.

Besides occupying lands in Gulbarga, Bidar, South Kanara districts and round about Bangalore on July 1, the CPI will conduct a "powerful" campaign throughout the State to amend land ceiling laws, to grant pattas to those who have already occupied the lands and introduce radical agrarian reforms as in Kerala-

The Council, which was presided over by Sri Simpson Soans, a member of the State Control Commisson of the CPI, felt that the present Mysore Ministry was getting more and more isolated with the defeat of its [illegible] in the recent elections.

It resolved to reconsider its alliance with the Samyukta Vidhayak Dal in the Assembly if the SVD did not come out with a positive left oriented programme, without the Jan Sangh, Swatantra and the New Congress in it.

The CPI criticised the extension of Bangalore Corporation supersession and urged the Government to conduct elections at the earliest.

It blamed the Jan Sangh, RSS and Shiv Sena for communal disturbances in the country.

The CPI meeting was attended by Messrs. S. V. Ghate, party treasurer, N. K. Krishnan, member of the Central Secretariat, M. S. Krishnan, MLA, U. S. Venkataraman, Sangram Prabhu Rao and Somasundara Sharma, local unit secretary.

He was inaugurating the first five-day regional Writers' Camp in Kannada, Malayalam, Marathi and Sindhi at Manasa Gangotri. Eighteen eminent writers are taking part.

Dr. Rao regretted the lack of an agency in the country which can effectively ensure that the best writings in various languages were made available in all parts of the country in original. The work of the Sahitya Akademi in this regard was inadequate, he said.

The Minister said there was a greater responsibility on the writers today. Even after 22 years of independence, the old wounds were sought to b revived and new were being made. Troubles in various parts of the country, Dr. Rao said could not be fought politically, or by mere law and order. It was only creative writers, who had access to the hearts of the people, could achieve mutual tolerance and national unity.

Welcoming the gathering, Dr. B.V. Keskar, Chairman of National Book Trust of India, under whose aegis the camp is being conducted, said the literatteurs could contribute to a better understanding of various regions and languages.

Panchayati Raj Study In Varsities

S. K. DEY'S PLEA

Mysore, June 5

Sri S. K. Dey, former Union Minister and President of the All India Panchayat Parishad, called upon the Universities in the country to introduce integrated study of panchayatiraj by students.

He was inaugurating a three-day conference of members of the Parishad and the representatives of Universities in the country at the Administrative Training Institute.

Sri Dey said it was necessary for Universities to establish contact with the rural areas and know the problems and progress in the democratic institutions.

For this, he suggested, adopting of a dozen villages for devolopment by each university. The Karnatak University had already done this by adopting a village, he said.

The former Minister criticised the lack of interest after Nehru's death in the community development programmes and panchayatiraj. If democracy was to move on correct lines it must have its roots in local-self institutions, he said.

The community development programme had really laid the foundation for democratic decentralisation. "The community development programme and panchayatiraj cannot be left to dogs. It has to be developed on our own roots if democracy has to progress. Independent institutions like the universities should evince interest in their study", Sri Dey said.

Earlier, Dr. H. L Kulkarny, Director of the Administrative Training Institute, welcomed the participants.

Sri G. L. Puri, General Secretary of the Parishad, proposed a vote of thanks.

Evolve Uniform Pattern In Ayurveda Study

Mysore, June 8

Union Health Minister K.K. Shah yesterday called upon the Ayurveda professionals to decide the controversies regarding type and method of training in Indian medicine.

Laying the foundation-stone for Rs. 3.8-lakh additional block of Government College of Indian Medicine and Hospital, he said there have been some controversies regarding the type and method of training in Indian medicine.

While some institutions are running courses in pure Ayurveda, some others preferred integrated teaching. A uniform pattern and standard of education has not been achieved so far, he said.

Explaining the keen interest the Government is having in developing the Indian system of medicine, the Union Health Minister said that efforts are being made to revive and utilise this system.

Programmes for upgrading selected Ayurvedic colleges, having basic facilities for post-graduate teaching are being finalised. A bill for establishment of a Central Council of Indian Medicine has been introduced in Rajya Sabha and is expected to be discussed in the coming session, Sri Shah said.

The Minister appealed to them not to create any controversies regarding the various methods of Indian medicine, ayurveda, unani and homeopathy. Each one is based on sound principles and its efficacy is verified in thousands of cases, he said.

As allopathy is becoming costly, Sri Shah said he wanted more and more institutions in Indian medicine should come up. He appealed to the Ayurvedacharyas to create a proper climate for the existence of Ayurveda by proving it on scientific lines.

He hoped that it would be possible to introduce a pill for family planning based on Indian medicine in the market soon.

Health Minister Y. Ramakrishna, who presided, said the State Government was very much anxious to develop Ayurveda but lack of enough funds came in the way.

He appealed to the Union Minister to give aid for more scholarships, to post-graduate courses and translation of books into regional languages. The Government has also proposals to start ayurvedic hospitals in all taluk headquarters, he said.

Earlier, Dr. H. Shama Sastry, Director of Health welcomed the gathering. Sri B. M. Sharma, College Principal, read a report, Sri S.N. Madhava Swamy, Assistant Director of Indian Medicine, proposed a vote of thanks.

Shah Rules Out Unified Congress

He told the New Congress workers that the 1972 general elections would be more formidable than the previous elections. 'it would decide the ther democracy would survive in India or not.

The Old Congress, Sri Shah warned, would try to win the elections by creating communal disturbances by and misleading the people.

Therefore, the Union Health Minister, appealed to the party workers to make the New Congress the party which reflected the aspirations of the commonman.

Sri K.B. Shiviah, District Congress Committee (New) President, welcomed the chief guest. Sri D. Jayadevaraja Urs proposed a vote of thanks.

FANATIC APPROACH TO LANGUAGES

PLEA FOR A CHANGE

Mysore, June 13

A plea to change the fanatic attitude in respect of teaching and learning of languages in the interest of the future generation was made by Prof. S. V. C. Aiya, Director of the National Council of Educational Research and Training, New Delhi, here today.

Delivering the valedictory address of the Summer School of Linguistics at the Maharaja's College Centenary Hall, Prof. Aiya referred to education through mother-tongue only and said when the child's capacity to learn many languages was curtailed by making it to learn only one language, it would make the child to get into one track. "All that we do by teaching in one language is to make it a jutka horse". Later it would be too late to learn other languages, he said.

He pleaded for including essential vocabulary, the common technological words which were in every day use, in teaching of languages and scientific method of teaching a language to children so that they could be prepared for the 21st century instead of remaining in the 16th or the 17th century.

Prof. Aiya criticised the Universities for their slowness in adopting changes and following set traditions which should have been given safe burial with all honours over two decades ago.

He called for a standardised procedure in teaching of languages with experts writing the text-books and putting them through the various mass media. For this he suggested making lingustics a compulsory subject of study.

These steps had assumed more importance with the existence of linguistic States which had brought prejudices about languages, he added.

Earlier Dr. D. P. Pattanayak, Director of the Central Institute of Indian Languages, welcoming said that 144 students had taken part in the month-long summer school conducted under the joint auspices of the Institute, the Linguistic School and the Mysore University.

PM's Warning To Rich

Prime Minister Indira Gandhi yesterday warned the rich in the country that if they were not prepared to share a part of their wealth for the larger benefit of the people and reduce their profits, "the time will come when it would be taken away from them by violence".

The Prime Minister made a bitter attack against communal forces which were trying to sabotage the country's unity and lower its prestige abroad. She said her party's crusade against communalism was not a "fight against religion" but was directed against those who in the name of religion were intolerant towards those professing other faiths.

The Rotarians, therefore, had to play a significant role to preserve democracy, he said.

Revolt Against Violence

GOVERNOR'S CALL TO YOUTH

Mysore, July 8

A call to the youth and the educated in the country to rise and revolt against violence and anti-Gandhian activities being indulged in the country was given by Governor Dharma Vira here yesterday.

Releasing the Gandhi centenary souvenir of the Mysore Junior Chamber, he warned that "if we do not do this within the next few years we would have lost the battle and everything".

Although all over the world, he said, Gandhiji was acknowledged as the greatest person and the country which gave birth to him would remember and cherish his memory, in the very same country he has been steadily and studiously being forgotten within a short period after his death.

Further, the very idea of Gandhism itself was being sought to be destroyed. In certain parts of the country one heard of Gandhi's pictures being burnt publicly, his literature destroyed and statues defaced. This was being done by the sons of the nation to the father of the nation, Sri Dharma Vira regretted.

"Gadhiji taught us love, tolerance and brotherhood. But we his children are today doing everything just the reverse. In the newspapers everyday one reads nothing except accounts of violence all over, deception and ill-treatment in the name of casteism, linguism and regionalism. We sit idle and do nothing about them", he said.

In the present time of chaos and violence, the teachings of Mahatma Gandhi were much more important than ever before. "But we seem to be busy with other things and have no time for them", he said.

Sri Dharma Vira pointed out the responsibility of the youth in fulfilling the dream of Gandhiji. "You will have to actively come out and raise your voice against all the inequalities and forces vitiating the atmosphere in the country" he said.

Smt. Ruby Muddappa read the Jaycee creed. Chamber President M. K. Brahmappa welcomed the gathering. The Governor presented the first souvenir copy to Municipal President B. K. Puttiah. After Gandhi Bhajan by Sri A. Gururaj and party Secretary A. K. Char proposed a vote of thanks.

Develop Artistic Talents

Mysore, July 7

Governor Dharma Vira yesterday called for developing the instinct of art and creative talent in the children and make every child conscious of our culture.

Distributing prizes to the winners in "on the spot pianting competition" conducted by Sree Saraswathi Union, Sri Dharma Vira said that every person had an instinct for art and creation, but these should be developed.

Mere dams and factories, he said, would not contribute to the development of the country. The artistic and creative values and development of character of the people were the important assets. Unless these were developed there would be no real development of the country.

Sri Dharma Vira regretted that we had a genius in creating slums where beauty existed. A lack of appreciation for beauty and indulging in its destruction would not be development but degeneration, he said.

The Governor complimented the Saraswathi Union for organising the competition for children every year. He also welcomed the Municipality's proposal to organise similar competition in a big way in December.

Vice-Chancellor D. Javare Gowda, who was the chief guest, said that mere studies and physical development was not enough for children but they should have opportunities to express their creative talent.

He blamed the elders for indiscipline in the youth and said it was necessary to inculcate in them our culture and traditions.

After welcome speech by Sri Panduranga Rao, Sri V. J. Raghavendra read the report and Sri N. Raghavendrachar, the messages. Sri H. L. Srikanta Murthy proposed a vote of thanks.

MAKE DEMOCRACY SECURE

PM's CALL TO PEOPLE

Mysore, July 21

Prime Minister Indira Gandhi yesterday called upon the people to have courage, determination and unity to lauuch what she called the second phase of their struggle to make democracy secure and meaningful.

Addressing a mammoth public meeting of over a lakh people in the Maharaja's College cricket grounds, Smt. Gandhi called for easing of tension on religion and economics for establishingpeace which was the prerequsite of all progress.

The Prime Minister lashed out at the twin menace of commnnal parties and the left adventuists like the Naxalites.

The communal parties, she said, were fanning the flames of religious hatred, provoking shameful riots resulting in misery and there were others who were impatient with the ways of democracy and were advocating violence to bring about changes. She warned that both were equally dangerous to Indian nationalism and democracy. Smt. Gandhi pointed out that youth might think violence as exciting but that would be short lived excitement. She said real excitement lay in making history in the rejuvenation of ancient nation and in the modernisation of a traditonal society.

She said: 'It is only then that democracy could be secured in India and it is only than people could be free and no one group could pull the nation this way or that'.

Smt. Gandhi said she had come not to give anything but to ask for every. thing from the people, 'During the days of freedom struggle we could not promise anything good and comfortable. We could only promise bullets, jailterms and possible death. Those who came knew and they came consciously. It is the same thing today' she added.

The Prime Minister concluded her speech by stating 'Let us all combine to work for a better future not resting with blaming persons for the past'.

Urs Call To Partymen

Mysore, July 22

Sri D. Devaraj Urs, Convener of the ad hoc MPCC, called upon his partymen to be prepared to shoulder the responsibility of forming the next Government in the State.

Addressing the closing session of the two-day political conference of the party at the Exhibition Buildings yesterday night, he said it was not important whether the party would come to power in 1972 elections or even earlier.

People had come to know that there was now an alternative party in the State which could form the Government and that party was the New Congress. Therefore, Sri Urs said, the partymen should now think of how best the party could shoulder this responsibility

He pointed out that the days of welcoming all men to the party were over and now they must think of taking only such men who believed in the party's policies.

The session yesterday began with invocation and reading of messages by Sri Krishniah. The conference considered about a dozen official resolutions and two non official resolutions.

Sri C. Bandi Gowda, thanked the Mysore District and City Congress Committees for arranging the conference.

DCC President K. B. Shivaiah proposed a vote of thanks. As many as 1763 delegates, including 152 labour representatives and 73 women, took part.

TRIBUTES TO CHARLES DICKENS

Mysore, July 23

Glowing tributes were paid to Charles Dickens, a great literary figure in English literature, on the occasion of his death centenary, here yesterday.

Sri M. Rama Rao, Chief Editor, English-Kannada Dictionary, Mysore University, speaking under the auspices of the English speaking Union of the Commonwealth, said Dickens was very popular during his life time and continued to be popular even today.

Although his novels came for severe attacks from the critics as lacking depth and did not deal with any international problem, he pointed out that this great Victorian writer had not the advantages of writers like H. G. Wells and Virginia Woolf of modern science and psychology.

Dickens' knowledge was limited but came directly from the life which he had suffered himself. Therefore, in his novels, there was a child-like simplicity, realism and humour. This created a new set of readers and made him popular.

Therefore, Sri Rama Rao said, it was joyous and health-giving experience to read Dickens. It can be said that one who has ceased to enjoy Dickens has ceased to enjoy anything' he added.

'SAMSKARA'

Sir,-I saw Samskara with great expectation. But it has received exaggerated propaganda of having been produced by a class of intellectuals and as the first Kannada experimental movie.

It is the saddest of my feeling that the film ridicules certain ritual performances of Brahmins. It indicates the intention of the film makers to humiliate a particular community. If the same had been produced to humiliate any other community, there would have been untoward incidents.

It is not the right time to encourage such pictures when people are trying to forget communal feelings and the community which has been ridiculed should protest against the film.

Bitter Attack On Prime Minister

Censure Motion Moved

Several Opposition members in the Lok Sabha, who spoke on the no-confidence motion yeserday severely criticised Prime Minister Indira Gandhi.

Moving the one-line no-confidence motion, which received the support of the Old Congress, the CPM, the Jan Sangh and the SSP, Sri Madhu Limaye gave three reasons for his motion: The attempt to rig the Kerala elections by alleged manipulation of electoral rolls, excessive concentration of powers in the Prime Minister and the dilution of the principles of ministerial control and the general bureaucratisation of the Government.

Sri Limaye (SSP), Dr. Ram Subhag Singh (Old Congress), Sri M. R. Masani (Swatantra), Sri Balraj Madhok (Jan Sangh) and Acharya Kripalani (Independent) were the main speakers.

Sri Limaye charged Smt. Gandhi with concentrating in her hands powers far exceeding and enjoyed by such dictators as Stalin and Hitler.

Dr. Ram Subhag Singh said Smt. Gandhi's administration represented "everything that is evil in India".

The Government policies, Masani said, was disastrous for the country. Everything it did had hurt vital national interests.

Sri Madhok, who called Smt. Gandhi as "Hitler and Stalin in one" said it was no cabinet that she headed. She was a Maharani with others as slaves. The country had been reduced to the position of a satellite of the Soviet Union.

Slow Progress In Kabini Rehabilitation Work

Mysore, July 31

The villagers affected by the Kabini project yesterday expressed concern at the slow progress of rehabilitation works.

Sri R. Peeranna, MLA, and members of the Rehabilitation Committee, told newsmen who visited the Kabini project area yesterday, that although notices had been issued to families in 13 villages to vacate before June, no alternative arrangements had been made in full for their rehabilitation.

Out of 33 villages to be submerged, 13 villages were to be affected immediately with the storage of water increasing to 26 feet. A total number of 27 new colonies were proposed to be set up. Of them only three colonies had been completed and work on 13 others had been started. Full compensation for lands and houses had not been paid yet, they said.

A delegation headed by Sri Peeranna had recently met the Chief Minister at Bangalore and urged him to quicken the work on rehabilitation of the villagers.

According to the officials, the total area of submersion was 15,230 acres and about 20 villages with their hamlets. Compensation had been paid for 3,900 acres out of 8,700 acres of private land. The total amount paid as compensation for land and housing amounted to Rs. 49.50 lakhs.

So far Rs. 25.50 lakhs had been spent on formation of new colonies.

END CORRUPTION IN RTO OFFICE

Mysore, Aug. 1

Sri B. C. Lingiah, Leader of the ruling party in the City Municipal Council, yesterday bitterly criticised the working of the Regional Transport Office in the city and "rampant corruption" there.

At the Council meeting presided over by President B. K. Puttiah, Sri Lingiah gave out his own experience and said even car-owners were being asked to pay Rs. 10 for renewing their licences.

Huge sums were being collected as "mamuls" from bus-owners and lorry-owners for issuing special permits, he alleged.

Licences were delayed for months together for those who approached directly without paying any "mamuls". But if the same was sent through the agents and middlemen, the licences could be secured within a day or two, Sri Lingiah complained.

He requested the President to write to the Transport Minister pointing out the corrupt practices.

Charges of corruption in the K. R. Hospital, Cheluvamba Hospital and the L. F. Dispensaries were also made by Sri Vedantha Hemmige and Krishnaji.

They also complained of irregular supply of medicines and lack of facilities in the hospitals. Dr. P. D. Krishnaswamy wanted strict action by the police to put down increasing immoral traffic in women in the city. He also wanted proper enforcement of "silent zone" at the hospitals. He regretted disrespect shown to National Anthem in the cinema houses and wanted proper steps to be taken.

Toppling Patil Ministry Secondary, Urs

Members Feel Delay In Ousting Patil

Mysore, Aug. 10

Some members in his party were eager to topple Veerendra Patil Ministry in the State but he was not in a hurry to oust it before 1972 elections, MPCC (New) ad hoc Convener D. Devaraj Urs said yesterday.

Presiding over the function arranged to felicitate Union Law Minister K. Hanumanthaiya at Hunsur yesterday, Sri Urs said that some members of his party wanted to topple the present Ministry as the New Congress was gaining strength in the Assembly.

With their eagerness to become Ministers, they were expressing the feeling that the toppling game was being delayed by him (Sri Urs), he said.

The New Congress leader made it clear that although the demand for the toppling game might commence in his party, he was not eager for this. Toppling of the present Ministry was secondary. His first aim at present was to build a strong and capable party in the State which could give efficient administration.

"If others in the party are bent on toppling the Ministry, let them do it" he added.

Sri Hanumanthaiya alleged that criticisms of favouritism and corruption were being heard about the present Ministry in the State. The aim of the New Congress was to establish a clean Ministry in the State, he added.

Sri H. M. Channabasappa, MLA, criticising the old Congress on its 'grand alliance' said it was even ready to sacrifice the ten-point programme of the party.

Sri Tulsidas Dasappa, MP, called for tackling problems boldly instead of adopting an attitude of 'escapism'.

Patil Ministry Crumbling

Says Hanumanthaiya

Mysore, Aug. 10

The Veerendra Patil Ministry in the State stood like a 'dilapidated house' with 29 Ministers supporting it ready to fall at any moment, Sri K. Hanumanthaiya, Union Law Minister said yesterday.

Addressing a meeting arranged in his honour at Periyapatna, Sri Hanumanthaiya charged Sri Patil Ministry of rampant corruption and inefficiency. Mysore, he said, once with a small Ministry had provided efficient administration. But the present Ministry had grown to an unwieldy size of 29 Ministers costing the exchequer more.

The test for the present Ministry would come in the next elections and people should vote for those who were honest and stood for better and efficient administration, he said.

Sri H. M. Channabsappa, MLA, who presided, blamed Sri Nijalingappa for Krishna water dispute and the boundary issue. In order to attract Sri S. K. Patil and Sri Chavan, Sri Nijalingappa had accepted the Mahajan Commission without consulting anyone in the State, he accused.

In order to gain his own interests of remaining in power, although he was the Congress President and in good terms with the Prime Minister, he had made no efforts then to slove these issues, Sri Channabasappa criticised.

He also blamed tne Old Congress leaders of selfishness and groupism.

The split in the Congress organisation was trying to be exploited by some persons, Sri D. Devaraj Urs said. They were offering to join the New Congress with the condition that their 'enemies' should be kept away from the party. They were also approaching the Old Congress that if they were given permits and licences they would join that party.

Sri Liayaqat Ali Khan, a Taluk Old Congress leader, whose joining to the New Congress was announced at the function, also spoke.

BELIEVE PM ON BORDER, KENGAL

Mysore, Aug. 10

RSS Not In Mercy Of Govt

Mysore, Aug. 11

The RSS has no intention of entering into politics and it would continue as an organisation dedicated to character building of the youth, Sangh's Provincial Organiser H.V. Sheshadri said here yesterday.

Addressing a press conference, he criticised the Government's proposal to put curbs on the RSS and said that without a judicial enquiry and ascertaining which were the communal parties merely to harp on legislative steps to ban any party would be dictatorial.

The Sangh was not living under mercy of the Government and any step to curb its activities would not affect it in the least, Sri Sheshadri said.

CM's Protest On Kengal's Speeches

Bangalore, Aug. 13

Chief Minister Veerendra Patil yesterday sent a communication to Prime Minister Indira Gandhi taking serious exception over "the recent conduct" of Union Law Minister K. Hanumanthaiya during his tour in the State as a guest of the Government.

The letter pointed out that the Union Minister while undertaking tours at the cost of the public exchequer for official business was availing himself of the tours to denigrate the present Government.

Sri Patil implored the Prime Minister to impress upon her Cabinet colleague, "not to use his tours for propaganda against the State Ministry".

He made it clear that "if this basic restraint is unacceptable, the State Government will be within its rights to withdraw its hospitality and other facilities being extended to visiting dignitaries from the Central Government".

Fight Fissiparous Tendencies

Bangalore, Aug. 15

Chief Minister Veerendra Patil has called upon the people to pledge to fight a relentless war against the forces of disruption, disunity and disharmony and strengthen the cherished freedom with renewed fervour.

In his message on the 23rd Independence Day, Sri Patil said: 'The Indian scene today bristles with rifts, dissensions, disloyalty to good causes and a host of other wayward tactics. Stability in administration has been knocked out in a mad race to gain selfish advantageous ends'.

The Chief Minister referred to the increasing violence and student unrest and said that organised violence was raising its ugly head in several parts of the country.

"When we talk of higer production to build up a secure economic base, these fissiparous tendencies have halted our progress", he said.

Sri Patil said: "The entire Indian scene after 23 years of freedom is one of dismay and frustration. The true values of life have been given a go by altogether. The cherished unity of India is a precious gift that should be nurtured inspite of pressures to the country".

In his broadcast to the nation on the eve of 23rd Independence anniversary, he called for breaking the vicious circle of lack of resources leading to unemployment and perpetuation of poverty "if we are to survive as a nation".

"We must evolve a bold plan of full employment coupled with rapid economic growth. What we therefore, need is an action-oriented programme with the main accent on fuller utilisation of our human resources".

Progress In Electricity Production

By far the most spectacular progress made by India during the planning era is in generation of electricity. In 1951, the total electricity production was less than 3 million kw; in 1960 it had risen to 5.65 million kw; in 1965 66 to 10.17 million kw; and in 1968 69 to 14.29 million kw. The growth of electricity generation was, thus, almost as much each year as the total generation of power in 1948.

The average annual growth rate of generating capacity in the year 1961-69 was about 12.55%.

In terms of million kwh, the figures are: 1960-61, 20123; 1965 66, 36825; and 1968 69, 51700.

The per capita consumption of electricity was 38 kwh at the end of 1960 61. It increased to 61.4 kwh by the end of the Third Plan and to 79 kwh at the end of 1968-69. Industry continues to be the largest consumer. There has, however, been a significant increase in power consumption by agriculture during the past five years.

FOURTH PLAN SCHEMES

A total outlay of Rs. 2447.5 crores has been provided for power in the Fourth Plan, which is nearly 32 per cent of the total public sector outlay.

On the basis of this outlay, a net installed capacity of 23 million K. W. can be achieved.

The provision includes Rs. 120 crores on atomic power generation, and Rs. 2 crores on the Neyveli thermal station.

A provision of Rs. 15 crores has been made in the Plan for advance action on a new atomic power station, the location of which has yet to be decided.

The first atomic power station at Tarapore of 380 MW capacity has gone into operation in 1969. In the second station at Ranapratap Sagar, the first unit of 200 MW is expected to be commissioned towards the end of 1971, and the second unit about two years later. In the third station at Kalpakkam (400MW) the first unit (200MW) is expected to go into operation in 1973-74.

DEFENDERS OF OUR FREEDOM

When the Indian Army was re-constituted—or divided between India and Pakistan—23 years ago, India was left 2,60,000 troops. Many training centres were lost to Pakistan and almost all the senior British officers left the Army—and the country.

There had to be a major re-organisation. Young Indian officers had to take on responsibilities which were not foreseen. Partition and communal riots saw the Army called out to help restore order.

Hardly had two months passed after the country became free then a war was thrust on us. On Oct. 27, 1947, the Indian troops landed in Kashmir.

Conditions became more difficult after 1962. The Chinese aggression added a new dimension to our defence system The whole of the Himalayan border became live. The lack of modern weapons and equipment placed us in a vulnerable position and endangered the morale of our fighting forces. It was a dangerous situation calling for drastic remedies.

Greater Fire Power

The Army strength was doubled—it is now 8.29 lakhsNearly half theArmy is now composed of mountain divisions, trained to live and fight in the mountains. They were manning pickets ranging from 5,000 to 15,000 feet or more.

Modernising our Armed Forces through our own efforts is a difficult process. The beginnings made in the late fifties are now bearing fruit. The infantry has been able to discard the old .303 rifle, replacing it with the 7.62 Ishapore rifle. It has better light machine guns, grande launchers and clothes. The Artillery has got rid of the old, but popular, 3.7-inch howitzer and acquired new mountain guns. There are better long-range guns and guns for anti-aircraft operations. The Armoured Crops has dispensed with the worn out Shermans and re equipped itself with our own Vijayanta tanks.Portable wireless sets and high and very-high-frequency transmitters have enabled the Army to maintain communications for a mobile force. The Army today has greater firepower, higer mobility and speedier communications-

The achievements have been many. From an Army which was estranged to the people of the country, we have today a fighting force integrated with the common man. It derives its inspiration from the people and, in turn, gives them confidence in its ability to defend the country.

Party, Opposition Back Chief Minister

MAHAJAN REPORT ONLY SOLUTION

Bangalore, Aug. 18

The leaders of Old Congress in the State and the Opposition leaders yesterday backed Chief Minister Veerendra Patil on his stand on the border issue and asked him to stick to the implementation of the Mahajan Commission report.

Sri Gopala Gowda, who gave details of the meeting between Opposition leaders and the Chief Minister, said: "We have already rejected the idea of an opinion poll. PATIL REJECTS DELHI PROPOSALS

INSISTS ON MAHAJAN AWARD

Chief Minister Veerendra Patil yesterday made it clear to the Prime Minister and the members of the Political Affairs Committee of the Union Cabinet that neither the proposal to hold an opinion poll to settle the border dispute between Mysore and Maharashtra nor referring the matter to a tribunal would be acceptable to Mysore. He also said that he was not in favour of a third proposal to refer the Mahajan award to Parliament for consideration.

He explained the case of Mysore for acceptance of the Mahajan Commission report in toto although the report was not completely in favour of Mysore.

The Chief Minister had a 45 minute meeting with the Prime Minister and Sri Jagajivan Ram and later he was invited to the meeting of the political affairs committee.

NO DEADLINE

Later he told pressmen that he was very much satisfied with the discussion. 'I have the satisfaction that I have presented my case fully and according to me, convincingly'.

He said that at no time during the discussions had he gained the impression that the Union Government wanted to fix a deadline to make an announcement on the issue.

They have warned that talk of an opinion poll or an appointment of another commission to settle the dispute would be 'a dangerous precedent, which would inflict untold damage to all concerned. The only solution is to implement the Mahajan award'.

NUNS TO EUROPE

Delhi Collecting Details

A report in the British Sunday Times that West European Catholic convents were buying Indian peasant girls from Kerala to force them into nurseries was denied yesterday.

A spokesman of the Catholic Bishops Conference of India denied that there was any such trafficking or girls were being sent on false promises.

The Archbishop of Trivandrum described the report as a "complete distortion of facts". He said it was a fact that girls from Kerala, including some from Mangalore, went to Germany, France, Italy and Spain for training to become nuns. About 2,000 such girls might have gone over the last few years. But there was absolutely no question of "any exchange of money", he said.

A Vatican spokesman, who denied "trade in Indian girls" said that a certain number of young Indian girls were received into various religious institutes,especialy in Europe.

The Government of India is collecting details about the report of girls from Kerala being taken to Europe by organised bodies.

Project To Help Small Ryots Inaugurated

Mysore, Aug. 28

A Rs. 952-lakh pilot project on the agricultural development of the small farmers of Mysore District, the first of its kind in South India, was inaugurated here this morning by Governor Dharma Vira.

Sri Dharma Vira hailed the project as a significant one for the socio economic development of the rural areas, particularly the small farmers who had not come under the Green Revolution, which had mainly benefitted the bigger farmers.

He was glad that an approach had been started to help the small farmers, who, for lack of facilities and finance, could not undertake agricultural development although they constituted a major section.

The Governor called upon the officials to shed "head high above others" attitude and work for the success of the scheme with a spirit of dedication and service.

Chief Minister Veerendra Patil in his presidential address stressed the need for mechanisation of small holdings as in Japan and called for more attention to improve dry farming.

Sri Patil wanted that the old notion that agriculture meant cultivation of lands should go and farmers should take up subsidiary occupations.

Agriculture Minister B. Rachiah welcomeing explained the objectives of the pilot project and said the Government would spend Rs. 1.60 crores on the scheme.

Sri Marigowda, Vice-President of District Central Co-operative Bank, proposed a vote of thanks.

NO MORE MEDICAL COLLEGES

—Says CM

Mysore, Aug. 28

Chief Minister Veerendra Patil yesterday opposed Starting of new medical Colleges in the State.

Delivering the valedictory address of the Mysore Medical College Association, the Chief Minister suggested reduction in the intake of students to the existing medical colleges.

Sri Patil said that 30 to 40 house surgeons had come to him with a memorandum asking for jobs. This was his first experience when doctors in a body had come to him for employment.

Pointing out the seriousness of the problem of unemployment even in the medical profession, Sri Patil said that when the Public Service Commission had called for applications for 127 posts, as many as 500 had applied. The Government could not provide jobs for all the doctors in the State alone.

The Chief Minister said some leaders from Mandya and Tumkur had approached him recently to start medical colleges in their districts. After realising the exact position existed regarding job opportunities, he had said with all firmness that he would not be a party to their proposals.

Sri Patil said the State had not only the largest number of engineering colleges but also the largest number of medical colleges. Of the eight private colleges in country, Mysore State alone had as many as five.

He referred to the exhorbitant capitation fee being collected by these private colleges and said this had grown into a busines proposition. Andhra students were joining these private medical colleges by paying huge capitation fees, as their value in the marrige market would then go up Rs. one lakh.

The Chief Minister said doctors had a duty cast on them to serve the teeming millions who felt that they had been let down.

He assured that the Government would sympathetically consider the question of providing an auditorium and a playground for thr college.

Dr. Puttaraj Urs, Dean, presided.

Sri H. M. Patel, Secretary read the report. Miss Meera read out the messages. Sri B.V. Jayadev proposed a vote of thanks.

Start More Nursery Schools

Mysore, Aug. 31

Sri B. Mariraj, Additional Director of Public Instruction, this morning stressed the need for starting more model nursery schools in the State.

He was declaring open the Rs.1.5 lakh new building of the Rotary Children's school.

Sri Mariraj hailed the Rotary nursery school as "peak of excellence" and said this was due to untiring efforts of Sri F. K. Irani and Smt. Sheila Irani. He said they had done a signal service to education.

He said that in the State there were hardly 400 nursery schools whereas it should be 3,000. He pointed out that the Government could not start nursery schools directly.

Nursery education was very important and since they were handling children at very impressionable age, they had to be careful. In his opinion, nursery education had not spread because they had not taken it seriously.

He called upon philanthropists to come forward in opening such model nursery schools in the State.

Referring to the help given by the management of the Ideal Jawa Motor Cycle Factory and its dealers to the school building, Sri Mariraj said tiwas a magnificient example of how industry could help education.

Sri F. K. Irani, past Governor, welcomed the gathering.

Prof. Rajasekhara Setty, President of Rotary Club, said during its 27th year of exitence in the city, there were two milestones, Rotary Children's Library and the School building.

He paid tributes to Sri F. K. Irani and said but for the untiring and driving force of Sri Irani, this achievement could not have happened.

Smt. Sheila Irani, presenting a report said that the school started with three children now had the strength of 160. They had also started primary section this year.

Sri Omprakash, Director of the Community Service, spoke.

Smt. Carolyn Parpia propsed a vote of thanks.

Shorn Princes

Finance Minister Chavan announced in the Rajya Sabha yesterday the issue of the Presidential order about the derecognition of Rulers and the termination of their privy purses and privileges with immediate effect.

He said President Giri had taken the decision to put 'an end to a period of political and other uncertainties so undesirable in a matter of this nature' after taking a policy decision to abolish the privileges and privy purses and also to put an end to the very concept of rulership.

The Government, however, would honour their declared policy of making transitional arrangements to enable the erstwhile Rulers to make the necessary adjustment to the changed cricumstances, he added.

The Princes are now deprived of the special privileges brought within the law of the land applicable to every citizen of the Republic.

Till now a prince could not be proceeded against in a court of law without the permission of the Union Government.

The law on land ceilings will also now apply to the holdings of the former Rulers.

Former princes are now liable to be sued in a court of law for any infringement of a civil or criminal nature.

They have to pay all taxes including Income-tax, wealth and property tax.

No former Ruler will in future be allowed to fly on his palace his special flag. Their cars will no longer carry special number plates. They have to be registered with local authorities.

These Rulers who had a special foreign exchange allowance for their visits abroad will no longer be entitled to it now.

WADIYAR NOT WILLING FOR DASARA

Bangalore, Sept. 14

The traditional Dasara festivities—the Durbar in the Palace, the Jamboosavari with the Maharaja and the torch-light parade at Bannimantap—will come to an end from this year following the derecognition of the princes.

The Chief Minister who held two meetings with Sri Wadiyar made it clear that the State Government could not participate any more in the celebrations following the Presidential Order on the princes.

The illumination of the palace, which was being done at the cost of the State Government, will also come to an end.

Sri Veerendra Patil told newsmen that he was considering the alternatives, to hold the Dasara as a part of "Nada Habba" and also to keep up Mysore City's economy and tourist appeal. He said he would consult his Cabinet colleagues and decide the pattern of celebrations.

The Government was also examining the position of the three Palaces at Mysore, Bangalore and Ooty, which it maintained so far at a cost of Rs. 1.5 lakhs a year. The three palaces and also the Bannimantap parade grounds were the private property of the former Maharaja, he said.

Sri G.S. Shivanna, Director of Mysore Engineering Research Station, K. R. Sagar pointed out the frequent destruction of street lights during student agitations, particularly at the Chamaraja Double Road, and stressed the need for stone-proof electric installations.

STUDENTS TURN VIOLENT IN BANGALORE

ONE LAKH VARSITY PROPERTY DESTROYED

Bangalore, Sept. 25

The violent student agitators yesterday went on a rampage to set fire to the University Hall, ransacked the Geology Department of the Central College by destroying valuable microscopes, instruments and rare specimens, made a bonfire of university furniture and fittings and went on a stone-throwing spree.

Police used tear gas shells and made several rounds of lathi-charge to disperse the violent agitators in the Government College compound and the university campus.

Over Rs. one lakh worth of valuable property was destroyed in the students' vandalism, according to Vice-Chancellor Tukol.

One Assistant Commissioner, a sub inspector, 20 constables, and several BTS passengers and four newsmen were hurt in the stone throwing. Six students were injured in the lathi charge.

City Fathers' Delegation On Dasara

Mysore, Oct 2

The city fathers this afternoon unanimously decided to go in a delegation to urge the State Government to sanction Rs. 2 lakhs to the Municipality as grants to celebrate the Dasara festival, including a procession, with suitable changes to the present circumstances, this year in the city.

The Municipal Council, at a special meeting presided over by Sri B. K. Puttiah, also decided to request the Government to permit the Council to incur an expenditure of Rs. 25,000 in this regard.

The resolution was moved by Sri B. C. Lingiah and seconded by Sri B. N. Kenge Gowda.

Almost all the members of both the sides during the 3 hour discussion urged for retaining the Dasara splendour excluding the former Maharaja.

Sri Chowdiah, who spoke first, said it was painful to see Mysore without its old grandeur and importance. The Government should be urged to continue the Dasara Procession and the Palace illumination.

Sri Vedantha Hemmige suggested a procession on the lines of the Republic Day parade and distribution of awards to artistes and sportsmen.

He referred to the Ramanathan Committee's report for democratising the festival and said that if the Government could not hold a procession under the changed circumstances "it was unfit to be in power".

The present situation had arisen not because of any personal hatredness towards the former Maharaja but in the process of democracy, said Sri Srikanta Sharma.

But in order to retain the importance of Mysore City it was necessary to have alternative celebrations. He suggested taking out a colourful procession from the Doddakere maidan with Gandhiji's portrait. The Palace could be illuminated on the tenth day, he said.

Sri Papanni strongly opposed incurring of any expenditure by the Municipality on alternative arrangements.

It could not afford to spend the taxes collected from the poor men. However, he said, he was not opposed to conduct the celebrations, by raising money from merchants and hoteliers who derive more income

Sri Appajappa suggested Governor's participation instead of Sri Wadiyar as in the previous years in the celebrations. He wanted the torchlight parade also.

This year's Dasara was a sad affair, Sri Krishna regretted. He pleaded that the splendour of Dasara should be retained.

Out of 11 taluk development boards in the district the presidents of 7 TDBs were with the New Congress while the Hunsur TDB President was neutral and the Mysore TDB President was pro-Old Congress. However, in both the TDBs the majority was in favour of the New Congress, they said.

Out of 16 MLAs from the district, 7 belonged to the New Congress, out of 7 MLCs, 3 and out of 3 MLCs, 2 belonged to their party, the New Congress leaders claimed.

They said the party ad hoc committees had been formed in all the 11 taluks. The block level party elections would begin on Nov. 21 and the AICC on Dec. 30.

Guards, Flags In Palace

Councillor Objects

Mysore, Oct. 3

Sri T. V. Srinivasa Rao yesterday took exception to the continuance of guards and flying of Palace flags in the Palace even three weeks after the Presidential order derecognising the former rulers.

Speaking at the special meeting of the Municipal Council on Dasara festivities, he said the Government should take serious note of this.

Supporting Sri Rao, Sri Vedantha Hemmige said this was a serious matter amounting to showing of disrespect to the Constitution. He urged the Council to draw the Government's attention to this.

Sri Srinivasa Rao opposed Palace illumination and shami pooja as 'outdated'. He wanted Dasara as 'Nada Habba' organising cultural programmes on a larger scale.

Sri B.C. Lingiah, leader of the ruling Old Congress in the Council, said that no one wanted the former Maharaja to be still associated in this festival in the old way.

He wanted the Council to take out a procession this year itself with due changes.

The suggestion to use the Palace for continuing Dasara festivities was made by Sri M. K. Lingiah. He urged for a procession of Goddess Chamundeswari.

Supporting Sri Lingiah, Sri Somasundaram said that out of 120 items taken out in Dasara procession, 90 belonged to the Government and therefore there would be no difficulty in organising a procession.

PM Attacks Big Powers For Igaoring UN

Prime Minister Indira Gandhi chided the great powers yesterday for denigrating and ignoring the United Nations because they were no longer able to direct and control its activities or use it as an instrument of nationai ends.

Addressing the General Assembly at its 25th anniversary commemorative session, she charged the great powers with pursuing same discredited policies of balance of power and spheres of influence that had brought the League of Nations to a sorry pass.

Conveying greetings to the UN "on behalf of one-seventh of mankind, the people of India" Smt. Gandhi pledged India's support and loyalty to the organisation and appealed to small and medium powers to join together to strengthen the UN and to enhance its influence by keeping it above politics.

"The UN has been afflicted by the same malady as the League of Nations, that is, the attempt to direct and control its activities and to use it as an instrument for national ends. To the extent it could be so used, it was applauded and when it did not serve much purpose, it was ignored", she said.

The Prime Minister urged the countries to plan further than one decade and in the coming 25 years to evolve the concept of a larger freedom for man.

Indian Doctor's Claim

An Indian physician told a medical meeting at Los Angeles about a new procedure in which a woman can be sterilised in only 15 minutes under local anesthesia.

Speaking to the Family Planning Association of the Americas, Dr. V. N. Shirodkar said he has done the procedure on 10 women during the past four months.

The operation consists of placing a shield or diaphragm made of the patient's own tissue in front of the cervix, which is the entrance to the uterus, the doctor said.

By blocking the entrance Dr. Shirodkar continued, sperms are prevented from entering the uterus and causing pregnancy.

If the woman later decides she would like to have a child, a doctor can simply undo the stitches or place a hole in the shield to allow sperm once more to enter the cervix, Dr. Shirodkar declared.

Overhaul Education System, Naik

Mysore, Nov. 10

A vehement plea to overhaul educational system in the country was made here yesterday by Dr. K. C. Naik, Vice-Chancellor of the University of Agricultural Sciences, Bangalore.

Inaugurating the Science Exhibition organised by the University of Mysore as part of the International Education Year at Manasa Gangotri, Dr. Naik pointed out the urgency of tackling the unemployment problem and the mounting enrolment in educational institutions.

He said by 1976 there would be 16.6 million graduates requiring employment. This was a frightening number. "When we are unable to provide jobs for our few unemployed engineers how can we hope to provide employment to 16.6 million", he asked.

The Vice-Chancellor pointed out that although three education commissions had been appointed since 1947, not one far reaching recommendation of these commissions had been implemented so far. If recommendations were not implemented why should commissions be appointed, he questioned.

The huge growing unemployment was enough to shake us off the complacent attitude. Education which still continue to be in crisis had to be thoroughly overhauled to make it job-oriented. Otherwise, he warned "History will brand us to have neglected our duty. Our future will be dismal and bleak".

Dr. T. N. Ramachandra Rao, Scientist, CFTRI, who presided, suggested developing Mysore city as "Science City" as in western countries. The AIR station could be utilised for science broadcasting to channelise the enthusiasm of youth in seience.

Earlier, Dr. Siddalinglah welcomed the gathering. Dr. M. N. Viswanathiah proposed a vote of thanks

3 New Industries Near Mysore City

Mysore, Nov. 24

Three new industries with a total outlay of Rs. 100 crores would come up between the Chamundi Coffee Curing Works and Belgula near Mysore City on a 400-acre area within the next one year period.

Disclosing this here yesterday, Municipal President B. K. Puttiah said these industries were Rs. 4-crore rubber tyre industry Rs. 4 crore synthetic industry and Rs. 50 crore paper industry, all in the private sector.

Sri Puttiah, Municipal Vice-President M. E. Ganesha Rao and City Improvement Trust Board Chairman H. Kempe Gowda were felicitated by the Chamber of Commerce and Industry.

The Director of Industries and Commerce had already visited the area proposed for these industries. The Municipal Council had proposed to undertake a Rs. 10-lakh scheme to supply water to these industries, the Municipal President said.

He said the city was growing on all the four sides and its population within the next 3 4 years might even rise to six lakhs. The city might extend upto Belgula, Nanjangud and Srirangapatna.

Sri Puttiah said the Municipality should be ready to take up the Nehru Loka project, if the Centre was unwilling to implement it.

The Lalitha Mahal Palace would be converted into a posh hotel and the State Tourism Minister had given assurance in this regard, he added.

Sri Kempe Gowda said that if the city remained without any progress it was because people here were lacking courage in starting new ventures. Repeated demands should be made for new industries and projects to retain the importance of Mysore.

SECURE PALACE PROPERTY

He said that following the derecognition of the ex-Rulers, the properties of the former Mysore Maharaja were likely to be sold to others, thus affecting the beauty and importance of the city. The Municipal Council and Trust Board should together think of securing these properties in the city's interest. The people should also co-operate, Sri Kempe Gowda said.

At present the Trust Board was giving industrial sites at cheaper price and it would consider giving them at further reduced rate, he said.

Sri Ganesha Rao assured all help from the Municipality to new industrialists.

Chamber President F. K. Irani, welcoming the chief guests, said the Dasara and the Jaboosavari coming to an end had affected the city's economy greatly and it was the duty of the civic body to bring about an improvement.

Regular air service and conversion of the Mysore-Bangalore rail line into broad gauge were essential for industrial growth in the city. If the Lalitha Mahal palace was converted into a hotel more tourists could be attracted, he said.

Secretary R. Vasudeva Murthy, welcoming the gathering, urged the Municipal Council to spell out and give publicity to its concessions offered to industrialists willing to set up new ventures in the city.

Readers' Forum :

INJUSTICE IN SELECTION

The All India Football Federation selected 22 players for its coaching camp after watching the performance of players in the National Football Championship at Jullundur. It is surprising only one player from Mysore has been selected for the camp.

Those who followed the game will agree that Mysore, who did well throughout the championship, were narrowly beaten by hosts Punjab in the final. At least four players from Mysore, including Amjad Khan, Prabhakar and Iqbal Ahmed, were expected to be selected for the training camp. Their omission shows a partisan attitude by the selection authorities and disappointment to lovers of football in Mysore.

Cinema In J M Palace Opposed

Mysore, Dec. 2

A plea to give up the proposal to convert the Jagan Mohan Palace into a regular cinema theatre was made in the Municipal Council on Monday.

Sri M. K. Lingiah said such a conversion would spoil the beauty of the palace and few tourists will be attracted to the art gallery housed there

He wanted the President, Sri B. K. Puttiah, to write to the former Maharaja and the Government not to permit a cinema there. He also wanted improvement of the art gallery to attract more people.

They should be also requested to take steps to protect the Palace properties in the city in view of public interest, he said.

Sri B. C. Lingiah, leader of the ruling party, charged the Government of neglecting the Mysore Zoo and for thinking of starting a zoo at Bangalore.

He said while other States were spending huge sums on improving their Zoos, the Mysore Government had not approved even the Rs. one crore plan for the Mysore Zoo.

Sri Lingiah expressed the fear that starting of a Zoo at Bangalore, neglecting the Mysore Zoo, would remove one more tourist attraction in the city affecting its importance.

Instead of showing mere 'lip sympathy' by making speeches on the need to improve the city's status, the Government should think of concrete proposals, he said.

Opposition leader B. N. Kenge Gowda wanted conversion of the Mysore-Bangalore metre gauge into broad gauge. Only after this industries would come to city, he said.

Dr. P. D. Krishnaswamy, who sat with the Opposition having joined New Congress, suggested appointment of a subcommittee to look into public complaints of corruption in the Municipality.

Sri Coutinho urged for the eviction of unauthorised occupants of the agricultural colony and the sweepers' colony as per the direction by the Government.

Sri Chowdiah complained that traffic police were posted only in Sayajirao Road and no traffic police could be found in other important roads.

Sri Srikanta Sharma appealed for setting up a committee to examine the charges made by Sri M.N. Thimmiah during the previous meeting.

The immediate filling of the vananay of the Health Officer in the Municipality was demanded by Sri Vedantha Hemmige.

Messrs. Krishna, Appajappa, Siddappa, Chikkathammiah and L. Chikkarangappa also took part in the general debate.

The Mysore State Conference on Cauvery Waters convened by the District New Congress Committee was inaugurated this morning by Sri H. M. Channabasappa, MLA. Ad hoc MPCC Convener D. Devaraj Urs presided.

Sri Channabasappa said there was no legal stipulation that clearance should be obtained fon the Centre for the projects. Neither the Government of India nor the Madras Government could stop works on the projects.

He said it was clear that negotiations with Madras had failed. The only alternative left now for the Centre was to refer the issue to a tribunal. He criticised the Chief Minister's statements in this regard as "deceiving and baseless". The Centre could take no other step except referring the issue to a tribunal when the talks had failed, he said.

Earlier, Sri K. B. Shiviah, DCC President, welcomed the delegates numbering about 300. Legislators from Mandya, Hassan, Mysore and Coorg are also taking part in the conference.

The conference will adopt a resolution urging the State to complete all the projects on war footing and meanwhile take steps to protect the State's interests on legal side.
